Projects

Thesis/Capstone Project:

Recordly: An Android Based Attendance Monitoring System for DIT Faculty of Cavite State University - Indang Campus

The Recordly: A Mobile Attendance Monitoring System for DIT Faculty was developed to help the DIT faculty, including the department chairperson for managing sets of records digitally.

It also aimed to innovate the present attendance system of the department into an easier and portable way of signing attendance.

Techstack:

Android Studio, Java, Firebase Firestore, Photoshop.
